

HazMat Technician Refresher

Course Description

This course fulfills the requirements of EPA 40 CFR Part 311 and OSHA 29 CFR 1910.120 for hazardous material emergency responders. In accordance with federal regulations, emergency responders must update their certification annually. This course covers regulations, site entry and control, decontamination, respiratory protection, protective clothing, medical surveillance, and hazard recognition and evaluation. Practical exercises are included in this course.

Certification Information

The Hazardous Materials Technician certification exam is not offered during the duration of the course. Certification information can be found under the certification portion of the webpage.
