

## Advanced Trench Rescue

Course Description	Prerequisite Information	Class Notes
--------------------	--------------------------	-------------

This course is designed for the technical rescue personnel who are tasked with entry and command operations during trench collapse emergencies.

This course focuses on team entry operations, multiple patient removal/packaging techniques, interagency management and coordination. This will assist the participant to identify the required resources necessary for successful scene mitigation and the best ways to integrate resources into the technical rescue team operations. Participants will acquire skills and techniques required to lift debris off victims.

This course fulfills selected objectives of NFPA 1006, 1500 and 1670. In addition to OSHA 29 CFR 1926.650, 29 CFR 1926.651, 29 CFR 1926.652.

LSU FETI Basic Trench Rescue or equivalent.

Hours	Cost
24	\$350/\$575

Additional Information: N/A
