

Research Experiences for Undergraduates Program
in Physics and Astronomy
at Louisiana State University
Apply by February 1, 2023

Summary:

- 10 week research program, May 22 – July 29, 2023 (Preliminary)
- Apartment-style housing provided
- Travel costs paid
- \$600 weekly stipend
- Weekly science seminars
- Professional development activities
- Tours (LIGO, CAMD, campus lab, swamp)
- Poster presentations

Research projects in:

- Astronomy & astrophysics,
- Relativity and gravitational waves
- Atomic/molecular/optical physics
- Quantum optics and computing
- Condensed matter and materials physics
- Nuclear and neutrino physics
- Nuclear physics
- Medical and health physics
