

Louisiana Animal Disease Diagnostic Laboratory

**VIROLOGY
FEE SCHEDULE
225-578-9777**

Test Description	Code	Fee
ELISA for Antigen Detection^{2,3,4}		
Equine Infectious Anemia (ELISA)	SV053	\$10.00
Immunofluorescence Assays (IFA) for Antigen Detection^{2,3,4}		
Rabies Fluorescent Antibody (IFA) (additional fee for brain removal)	V016	\$70.00
Rabies brain collection - bats	V032	\$25.00
Rabies brain collection	NS040	\$25.00
Euthanasia for rabies testing	NS050	\$20.00
Miscellaneous test fees and supplies	V031	Varies
<p>¹All electron microscopy services to be completed at the University of Georgia EM facility (additional referral fee will be applied)</p> <p>¹<u>Direct Negative Stain</u> accepts cell cultures, lysates, allantoic fluid, or viral pellet suspensions in which the sample is directly absorbed onto a grid with no extra preparation. A contrasting stain is applied and the grid is evaluated.</p> <p>¹<u>Complex Negative Stain</u> accepts fecal samples and scabs or crusts from veterinary clinics and diagnostic laboratories. The preparation is two-fold: part of the sample is clarified quickly with the supernatant absorbed onto a grid; another part of the sample undergoes differential centrifugation before absorbing a concentrated pellet onto a grid. A contrasting stain is applied and both grids are evaluated.</p> <p>²IHC test may be available in LADDL as an alternative test (please check IHC fee schedule)</p> <p>³Molecular and Serology tests may be available in LADDL as an alternative assay (Please check the molecular diagnostics and serology fee schedules)</p> <p>⁴Please call the lab. Some tests will be performed at another AAVLD accredited veterinary diagnosis lab</p>
